Entrol sells its first H03 / EC-120 FNPT II simulator to Helang Flying Academy in Malaysia

Entrol has sold its first **H03 / EC-120 FNPT II** simulator to Helang Flying Academy.

The simulator replicates in detail the EC-120 helicopter, equipped with dual Glass cockpit SAGEM avionics, a cylindrical visual of 180° x 40° and satellite imagery from Malaysia.

It will be the first simulator of this kind ever installed in Malaysia and also the first one sold by Entrol in the country. Since 2005, Entrol develops and manufactures helicopter and fixed-wing FNPT and FTD simulators, for flight schools, airlines and operators Entrol simulators are covered by a comprehensive after-sales services and designed according to CS-FSTD and FAA FTD directives aiming at improving pilot training, increasing security on aircraft operations and reducing operational costs.

Helang Flying Academy is a company born from an alliance between Major Flagship Sdn Bhd and Defence Conseil INTERNATIONAL "DCI". The Company objective is to provide high training courses based on ICAO and EASA standards such as CPL H, IR H besides specific mission training tailored to the needs and budgets constraints of its Customers.

"We look forward to a long and productive partnership with Entrol in support of our Helicopter Training Academy" said Charles Le Bot, CEO of Helang Flying Academy. "Our Academy strives to be the Helicopter Academy reference in Asia and Middle East and our focus is to give access to unparalleled teaching and instruction that is tailored to our valuable customers' operating environments. This first simulator will complement our fleet of EC120B helicopters and will improve the quality and safety of our training program and professional curriculum to better prepare our students for their future career as aviators".

ABOUT DCI and MAJORFLAGSHIP Sdn Bhd

DCI's mission is to transfer French military know-how to the armed forces of nations friendly with France. DCI is the reference operator of the French Ministry of Defence, offering services that are certified "French Forces Training". For over 40 years, it has been present across the full spectrum of defence and national security services, offering Consulting, Training and Technical Assistance. Through its capacity-based approach, DCI offers countries that are friendly with France customised solutions for personnel training and equipment maintenance. In addition to its Paris headquarters, DCI operates several international training centres throughout France. It also has bases outside France: in Qatar, Kuwait, the UAE and Saudi Arabia, in Southeast Asia with Malaysia and Singapore and, more recently, in India and Brunei. DCI is continuing to expand internationally with innovative, high added-value services through the development of new partnerships, particularly in Asia and Latin America.
